

Citing Internet Sources the Easy Way *Using Easybib.com*

After you've gathered your sources for research, use an online site to format citations correctly!

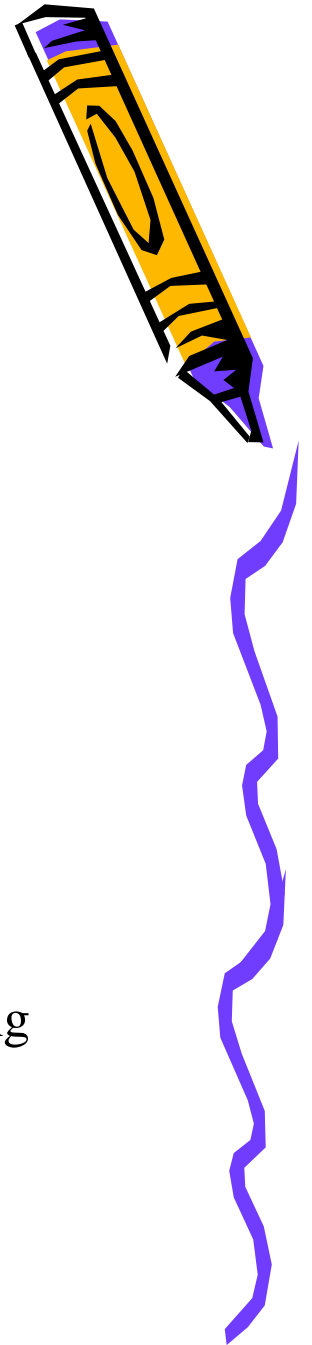

Adapted from a PowerPoint by
Sharon Elin on Slideshare.com

www.easybib.com

- Free access (using MLA style).
- Saves your list to finish later.
- Formats an entire Works Cited page without cutting and pasting each entry.
- Automatically alphabetizes and formats entries, using correct indents, typestyle, and line spacing.
- Finished page may be saved as a Word document for editing.

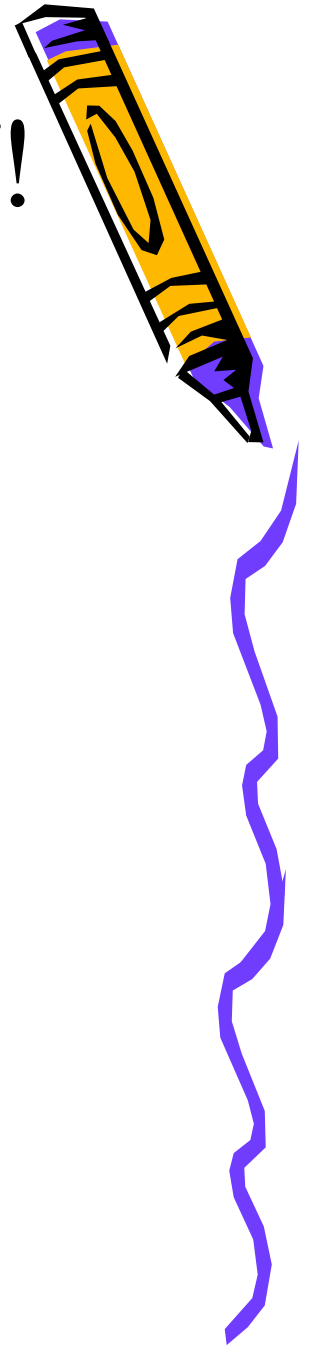

Easybib.com is not foolproof!

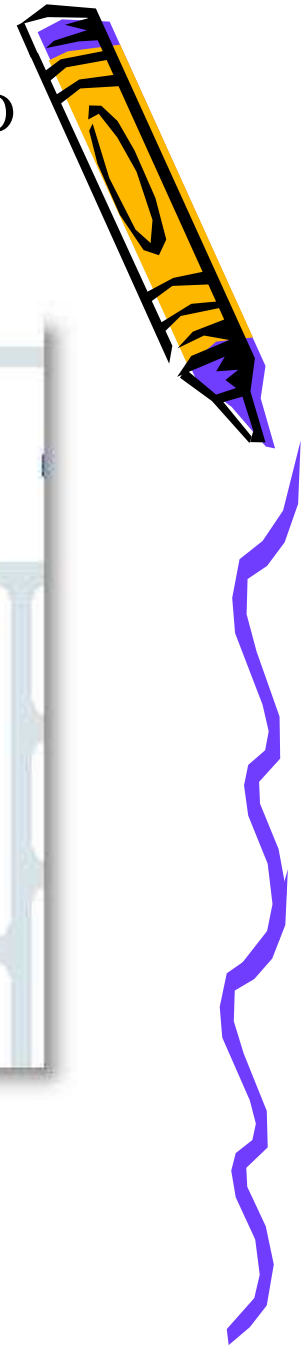

Errors are possible if:

- You're missing any required information about your sources
- You do not capitalize correctly or make careless typos or spelling errors

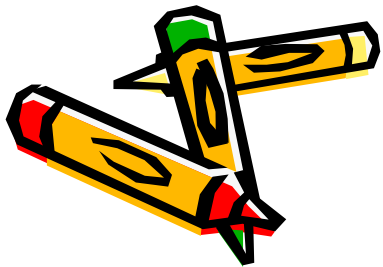

Proofreading is always crucial!

Easybib.com will lead you through the steps to create a completed works cited page.

A screenshot of the EasyBib website interface. The logo "EasyBib Write Smarter." is at the top left. Below it is a red button labeled "BIBLIOGRAPHY". To the right of the button, text reads "177,446,308 citations made to date!" followed by links for "Need APA style?" and "Load an old list". The main heading is "The Free Automatic Bibliography & Citation Maker" with the subtext "Start your MLA Works Cited list below!". A button labeled "Click here to select a source" is circled in red. A yellow callout box with the text "Click here to start" has a red arrow pointing to the "Click here to select a source" button. Below the button is a link for "New to EasyBib? Check out the video tutorial!". At the bottom left of the screenshot is a blue button labeled "OTHER STUFF".

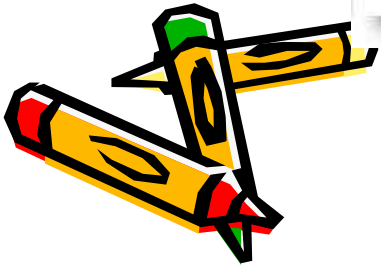

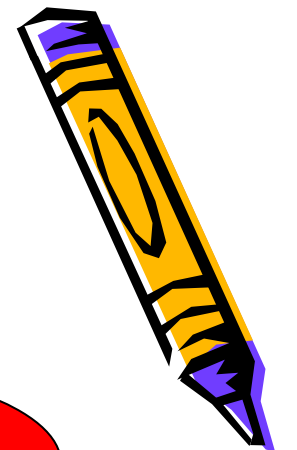

Choose "Web Site" if your source is an internet site

Info about the book drops into place when you click "Autocite"

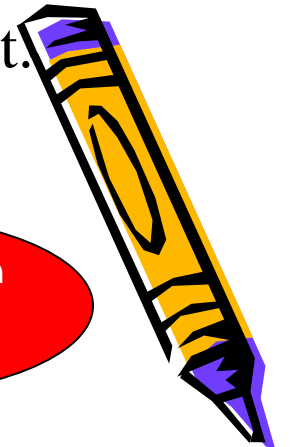

To add your next citation, click here:

The screenshot shows the EasyBib website interface. At the top left is the logo "EasyBib Write Smarter". Below it is a button labeled "Add another citation:" with a sub-button "Click here to select a source" circled in red. A mouse cursor is clicking on this button, and a tooltip with the same text is visible. Below the button is a "BIBLIOGRAPHY" section with a red "Unsaved - Save Now" button. The citation list includes: "Lange, Karen, and Michael Medford. 'The Stolen Past: West Bank Looting.' Ngm.com. Dec. 2008. National Geographic Society. 8 Dec. 2008. <http://ngm.nationalgeographic.com/2008/12/palestine-antiquities/lange-text>." Below the citation are buttons for "Find related articles", "Edit", and "Delete". At the bottom is a tip: "Tip: Don't cut and paste directly. Export your list to Word or view it online."

Easybib alphabetizes each new citation in a growing list.
Punctuation and formatting are automatic.

Allow the download

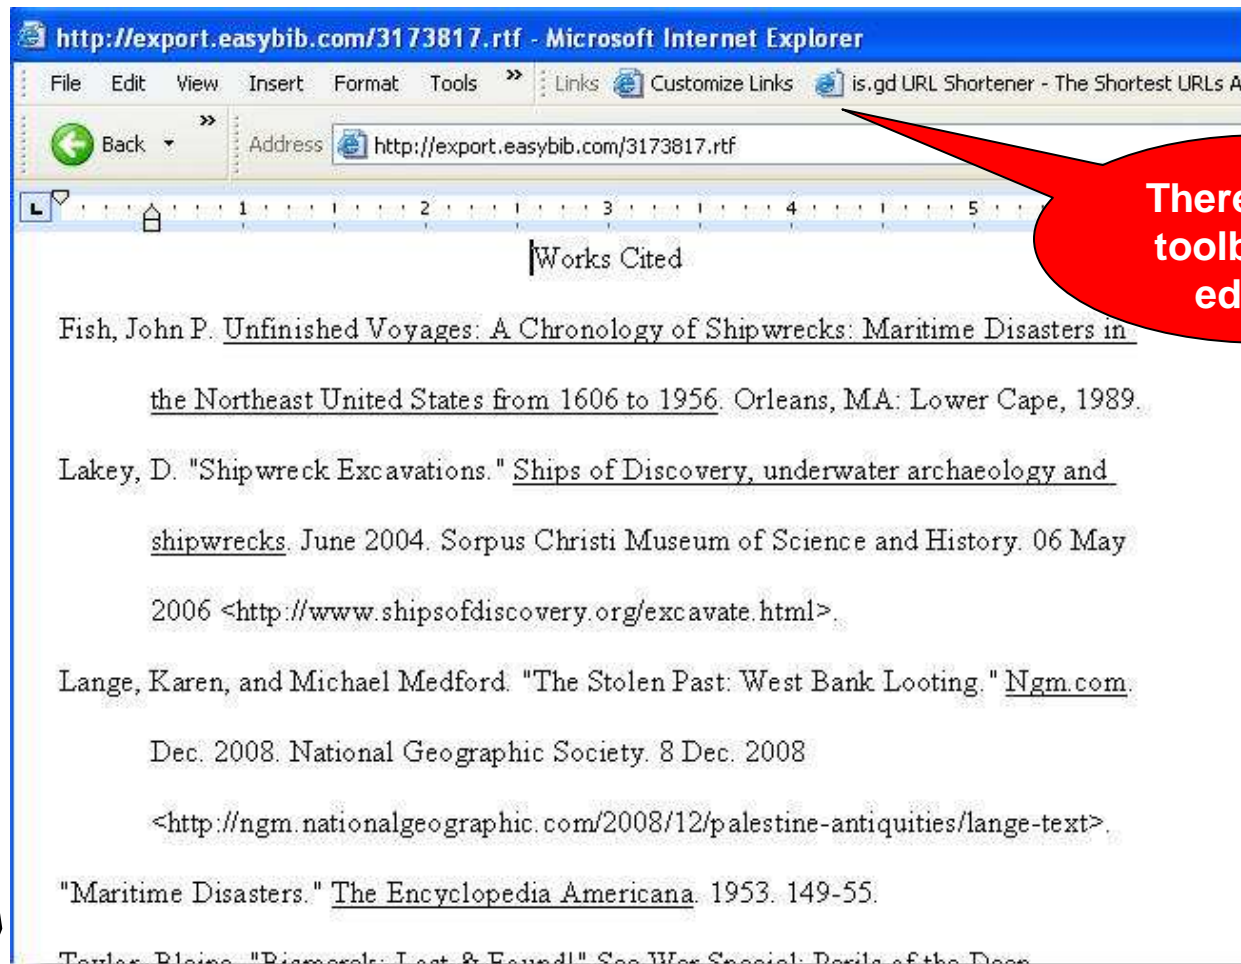

Select "Open"

The screenshot shows the EasyBib website interface. At the top left is the EasyBib logo with the tagline "Write Smarter". The main heading is "Exporting your list to Word". Below this, there is a message: "We are preparing your list. A popup will appear to download your RTF file. If you do not see this message, click here to download your RTF file." A blue button labeled "Click here to download your RTF file" is visible. Below that, there is a section for "From our partners:" featuring the "careers and college" logo and a link "Click Here Now to go to Careers and College". Overlaid on the right side of the page is a "File Download" dialog box. The dialog box title is "File Download" and the question is "Do you want to open or save this file?". It displays file information: "Name: 317367.rtf", "Type: Microsoft Word Document, 2.96 KB", and "From: export.easybib.com". There are three buttons: "Open", "Save", and "Cancel". The "Open" button is circled in red, and a red arrow points from the text "Select 'Open'" above to it. At the bottom of the dialog box, there is a checked checkbox "Always ask before opening this type of file" and a warning message: "While files from the Internet can be useful, some files can potentially harm your computer. If you do not trust the source, do not open or save this file. [What's the risk?](#)"

This file is “read-only.”
It needs to be saved as a Word document.
